March Eighteenth, Nineteenth and Twentieth.*

An Artistic Exhibition of Spring and Easter Millinery

Where Fashion Reigns Supreme.

Spring is here! We herald its coming with a millinery fashion exhibit of incomparable beauty and worth.

One of the notable features, will be the magnificent gatherings of picturesque imported models—Hats of the "PREMIER CLASS" that speak eloquently of the wonderful creative genius of famed French designers.

From world-renowned masters, such as—

HEITZ BOYER,
CHARLOTTZ,
CAMILLE ROGERS,

MAISON LEWIS,
VIROX,
MME. GEORGETTE,

CAROLINE REBOUX,
MME. PAUYAMSE,
JULIA.

These art hats form the keynote, and from them come the inspiration of our designers, who are responsible for the numbers of superb KAUFMANN PRODUCTIONS, some of which are daringly original, others clever reproductions of the imported novelties that win deserved praise for their beauty and chicness.

Alluring Displays of Fashionable Easter Costumes and Suits.

More than ever will the Kaufmann garment exhibits prove the fashion event of the entire season. Exhaustive displays of all that is new and modish in women's apparel has been gathered from the leading style centres for this brilliant Easter showing.

Throughout there is a vein of distinctiveness and original thought that lends a charmingly exclusive air to the exhibits, eliminating that stiff set style, so undesirable to women of refinement and taste. Our broad lines include everything from the most elaborate ideas to the smart effects, designed for street and traveling wear.

Easter Loveliness in Waists.

Exquisite Net, Lingerie and Jap Waists, hundreds of them, rich with the new conceits of clever needle women, both at home and abroad, make a truly fascinating collection. To lovers of beautiful things, this showing will be one of absorbing interest. Do not miss reviewing them in their fresh daintiness to-morrow.

Our public is asked to consider this a personal invitation to attend. WELCOME!
